**NOTICE OF INTENT TO ADOPT A  
MITIGATED NEGATIVE DECLARATION**

This form is provided as a notification of an intent to adopt a Mitigated Negative Declaration which has been prepared in compliance with the provisions of the California Environmental Quality Act of 1970, as amended, and Resolution #193-86.

**PROJECT TITLE:**

Application for a Use Permit filed by Joe Wagner and Marc Tsuchiya.

**PROJECT DESCRIPTION AND LOCATION (APN):**

Application for a Use Permit on a 7.8-acre site to allow for expansion of the existing Stratford School (grades K-8) from 258 students up to a maximum of 440 students. The property is located at **819 West Iowa Avenue** in a P-F (Public Facility) Zoning District. (APN: 165-11-007)

**WHERE TO VIEW THIS DOCUMENT:**

The **Mitigated Negative Declaration**, its supporting documentation and details relating to the project are on file and available for review and comment in the Office of the Secretary of the Planning Commission, City Hall, 456 West Olive Avenue, Sunnyvale.

This **Mitigated Negative Declaration** may be protested in writing by any person prior to **5:00 p.m. on Tuesday, July 20, 2004**. Such protest shall be filed in the Department of Community Development, 456 W. Olive Avenue, Sunnyvale and shall include a written statement specifying anticipated environmental effects which may be significant. A protest of a **Mitigated Negative Declaration** will be considered by the adopting authority, whose action on the protest may be appealed.

**HEARING INFORMATION:**

A public hearing on the project is scheduled for:

**Monday, July 26, 2004 at 8:00 p.m.** by the Planning Commission in the Council Chambers, City Hall, 456 West Olive Avenue, Sunnyvale.

**TOXIC SITE INFORMATION:**

(No) listed toxic sites are present at the project location.

**MITIGATED NEGATIVE DECLARATION**

This **Mitigated Negative Declaration** has been prepared in compliance with the provisions of the California Environmental Quality Act of 1970, as amended, and Resolution #193-86.

**PROJECT TITLE:**

Application for a Use Permit filed by Joe Wagner and Marc Tsuchiya.

**PROJECT DESCRIPTION AND LOCATION (APN):**

Application for a Use Permit on a 7.8-acre site to allow for expansion of the existing Stratford School (grades K-8) from 258 students up to a maximum of 440 students. The property is located at **819 West Iowa Avenue** in a P-F (Public Facility) Zoning District. (APN: 165-11-007)

**FINDINGS:**

The Director of Community Development of the City of Sunnyvale, California, hereby determines that an environmental impact report is not required. There are sufficient environmental controls incorporated into the Zoning and Subdivision regulations as to ensure no significant detrimental effect by any proposed use, in the case of a PD overlay or any application for a Use Permit.

The above determination is based upon the initial study conducted in this matter; information provided by the applicant in an "Application for Environmental Clearance" and is based on the fact that the use is in keeping with and not in conflict with the adopted General Plan, Zoning Ordinance and Subdivision Ordinance. The use is specifically permitted by a Use Permit and site and architectural control will be exercised over the proposed development by the Planning Commission. No endangered species are known to depend on this site for habitat.

**Mitigation Measures:**

- 1) No more than 80 students, per 15-minute period, should be dropped-off or picked-up in the Pastoria Avenue lot at any one time.
- 2) No more than 75 students, per 15-minute period, should be dropped-off or picked-up in the McKinley Avenue lot at any one time.

This **Mitigated Negative Declaration** may be protested in writing by any person prior to 5:00 p.m. on **Tuesday, July 20, 2004**. Such protest shall be filed in the Department of Community Development, 456 W. Olive Avenue, Sunnyvale and shall include a written statement specifying anticipated environmental effects which may be significant. A protest of a Negative Declaration will be considered by the adopting authority, whose action on the protest may be appealed.

De Minimis Impact Finding

**PROJECT TITLE/LOCATION (INCLUDE COUNTY):**

The Use Permit is located on 819 West Iowa Avenue, City of Sunnyvale, County of Santa Clara in a P-F (Public Facility) Zoning District. (APN: 165-11-007)

**PROJECT DESCRIPTION:**

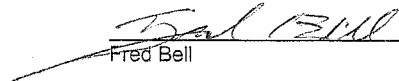

Application for a Use Permit on a 7.8-acre site to allow for expansion of the existing Stratford School (grades K-8) from 258 students up to a maximum of 440 students. The property is located at **819 West Iowa Avenue** in a P-F (Public Facility) Zoning District.

**FINDINGS OF EXEMPTION:**

1. This project is in an urban setting.
2. There is no alteration of land or effect on fish or wildlife.

**CERTIFICATION:**

I hereby certify that the public agency has made the above finding and that the project will not individually or cumulatively have an adverse effect on wildlife resources, as defined in Section 711.2 of the Fish and Game Code.

1. Project Title: Application for a Use Permit to allow expanded enrollment of Stratford School.
2. Lead Agency Name and Address: City of Sunnyvale, Community Development Department, Planning Division
3. Contact Person and Phone Number: Steve Lynch 408-730-2723
4. Project Location: 819 West Iowa Ave., Sunnyvale, CA
5. Project Sponsor's Name and Address: Mark Tsuchiya, Stratford School, 1196 Lime Drive, Sunnyvale, CA 94087
6. General Plan Designation: School
7. Zoning: PF, Public Facility
8. Stratford School has applied for a Use Permit to allow expanded enrollment at the existing private school. The City of Sunnyvale's Senior Center was previously at this location until 2003. Stratford is a year round private school consisting of preschool and elementary levels from grades K through 8<sup>th</sup>. The regular school day hours are from 8:00am to 3:30pm. There is also extended care offered before and after school from 7:00am until 6:00pm. Special events such as back-to-school night and open house are held during the evening hours on an intermittent basis only. The total capacity of the school is currently 258 students with approximately 25 full time staff positions. The expanded enrollment would increase the student population up to a maximum of 440.
9. Surrounding Land Uses and Setting: (Briefly describe the project's surroundings)

North: Washington Park – City of Sunnyvale
South: Public Facilities – Sunnyvale School District
East: Medium Density Residential
West: Medium Density Residential
10. Other public agencies whose approval is required (e.g. permits, financing approval, or participation agreement) none

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages.

DETERMINATION: (To be completed by the Lead Agency)

On the basis of this initial evaluation:

I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared. ☐

I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared. ☒

I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required. ☐

I find that the proposed project MAY have a "potential significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect (1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and (2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed. ☐

I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required. ☐

INITIAL STUDY ENVIRONMENTAL  
CHECKLIST  
Page 3

EVALUATION OF ENVIRONMENTAL IMPACTS

- 1) A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 2) All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 3) Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- 4) "Negative Declaration: Potentially Significant Unless Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section 17, "Earlier Analysis," may be cross-referenced).
- 5) Earlier analysis may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063 (c) (3) (d). In this case, a brief discussion should identify the following:
  - a. Earlier Analysis Used. Identify and state where they are available for review.
  - b. Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
  - c. Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project
- 6) Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g. general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
- 7) Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.
- 8) This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.
- 9) The analysis of each issue should identify: (a) the significance criteria or threshold used to evaluate each question; and (b) the mitigation measure identified, if any, to reduce the impact to less than significance.

**XI. GEOLOGY AND SOILS.** Would the project:

- a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury or death involving:
- (i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42. ☐ ☐ ☐ **X** UBC, UPC, UMC, NEC
- (ii) Strong seismic ground shaking? ☐ ☐ ☐ **X** "
- (iii) Seismic-related ground failure, including liquefaction? ☐ ☐ ☐ **X** "
- (iv) Landslides? ☐ ☐ ☐ **X** "
- b) Result in substantial soil erosion or the loss of topsoil? ☐ ☐ ☐ **X** "
- c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse? ☐ ☐ ☐ **X** "
- d) Be located on expansive soil, as defined in Table 18-a-B of the Uniform Building Code (1994), creating substantial risks to life or property? ☐ ☐ ☐ **X** "
- e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water? ☐ ☐ ☐ **X** "

**DISCUSSION OF IMPACTS THAT ARE LESS THAN SIGNIFICANT**

**VII NOISE (a)** The project may introduce short-term and temporary additional sources of noise at the site during high traffic periods throughout the day. Through the City's implementation of the Municipal Code noise regulations, this impact will be lessened to a less than significant level.

**VII NOISE (c)** The project will introduce additional sources of noise to the project area as an operational aspect of the expanded school. The proposed increased use of the property is anticipated to be only slightly more intensive than the current school operations. Through the City's implementation of the Municipal Code noise regulations, this impact will be lessened to a less than significant level both during operation of the school.

**IX PUBLIC SERVICES (a)** The project will generate a very slight increase in the use of existing park facilities (particularly Washington Park), but this impact is less than significant because the school only uses the park on an intermittent basis. The school also uses the park during weekday, daytime (9:00am – 3:00pm) hours only, which are generally lower use times.

**DISCUSSION OF IMPACTS THAT ARE LESS THAN SIGNIFICANT WITH  
MITIGATION INCORPORATED**

**XII TRANSPORTATION AND TRAFFIC (a)** The Traffic Division of the Public Works Department determined that a Traffic Impact Analysis (TIA) was required for this project. This determination was made based on the fact that the proposed increase in student enrollment would cause an increase in the total number of peak hour trips by over 100. Under Sunnyvale Municipal Code, an increase of 100 or more peak hour trips triggers a TIA.

A traffic analysis was submitted to the City by Hexagon Transportation Consultants, Inc. (on file at Sunnyvale City Hall) The study analyzed the proposed project's impact in three areas: 1) key intersection level of service, 2) traffic impacts to the surrounding residential neighborhood, and 3) loading and unloading operations impacts. The study made the following conclusions about the three potential impact areas. First, the project would not result in an adverse level of service impact at any of the key intersections studied. Second, the increase in traffic created by the project will not reach a threshold that will be noticeable by surrounding residents. Third, student loading and unloading operations should be required to have staggered times to avoid excessive queuing onto public streets by vehicles.

Hexagon Transportation Consultants, Inc and the City's Traffic Division of the Public Works Department are recommending mitigation measures to address the impact from student loading and unloading operations. It is recommended that the school stagger its start and end times to prevent queuing of vehicles onto public streets. These mitigation measures are intended to ensure that vehicles only queue on site and in the designated loading and unloading areas.

The following mitigation measures are proposed:

WHAT: 1) No more than 80 students, per 15-minute period, should be dropped-off or picked-up in the Pastoria Avenue lot at any one time.

2) No more than 75 students, per 15-minute period, should be dropped-off or picked-up in the McKinley Avenue lot at any one time.

WHEN: These mitigation measures will be converted into conditions of approval for this Special Development Permit prior to its final approval by the City's Planning Commission. The conditions will become valid when the Special Development Permit is exercised (by enrollment is increased beyond 258 students at the school).

WHO: The operators of Stratford School will be solely responsible for implementation of these mitigation measures.

HOW: The conditions of approval will outline specific hours of operation and number of students allowed at specific times and locations at the school. The operators of Stratford School will agree with these conditions and will be responsible for ensuring compliance at the site.
